NEW WURLITZER PHONOGRAPH MODEL 1015 COMBINES TIME-TESTED FEATURES WITH SENSATIONAL SERVICE ACCESSIBILITY

The magnificent new Wurlitzer Model 1015 incorporates Wurlitzer's traditionally superior mechanical features, 24 records, visible record changer, brilliant play-promoting cabinet styling and glorious tone with sensational new "cleared for action" service—the greatest service, time and money saver ever offered Music Merchants.

The steel-reinforced cabinet with its scuff-proof, stain-proof, nickel-plated metal base is a striking combination of walnut, burl maple and fast color, non-tarnish plastics. It rides on oversize casters.

NEW HEIGHTS IN BRILLIANT ILLUMINATION AT LOWER THAN EVER WATTAGE

Brilliant bubble illumination in the pilasters and automatic starting fluorescents requiring no push buttons give the Wurlitzer Model 1015

gorgeous eye-appeal. Yet the wattage is amazingly low! Record life is correspondingly increased.

"NATIONAL BOARD OF TRADE"

By Bill Gersh

As the industry gets deeper and deeper into the post-war era, it also comes to the realization that there should be some force to hold it together as a single and powerful unit—not only for the post-war years yet to come—but for its own protection as an industry bring worthwhile and economical entertainment and merchandising to America's millions.

Every industry thruout the nation long ago realized this fact. And just as long ago combined to strengthen itself for what might lie in store for it as it traveled the road of progress. Other entertainment and merchandising industries have organizations which allow them to proceed with complete control and protection.

This industry, which has grown with such leaps and bounds and so greatly impressed all America, especially during this past war period, is as yet a loose, disjointed business with little or no effective and enduring cooperation among its many members and especially among its various divisions.

Therefore, there should be brought into being in this industry a common meeting ground for all members. This would not go under the heading of an association. It would, tho, definitely help to bring together the responsible people of this business during periods of stress as well as during those periods designated for such events as conventions, etc.

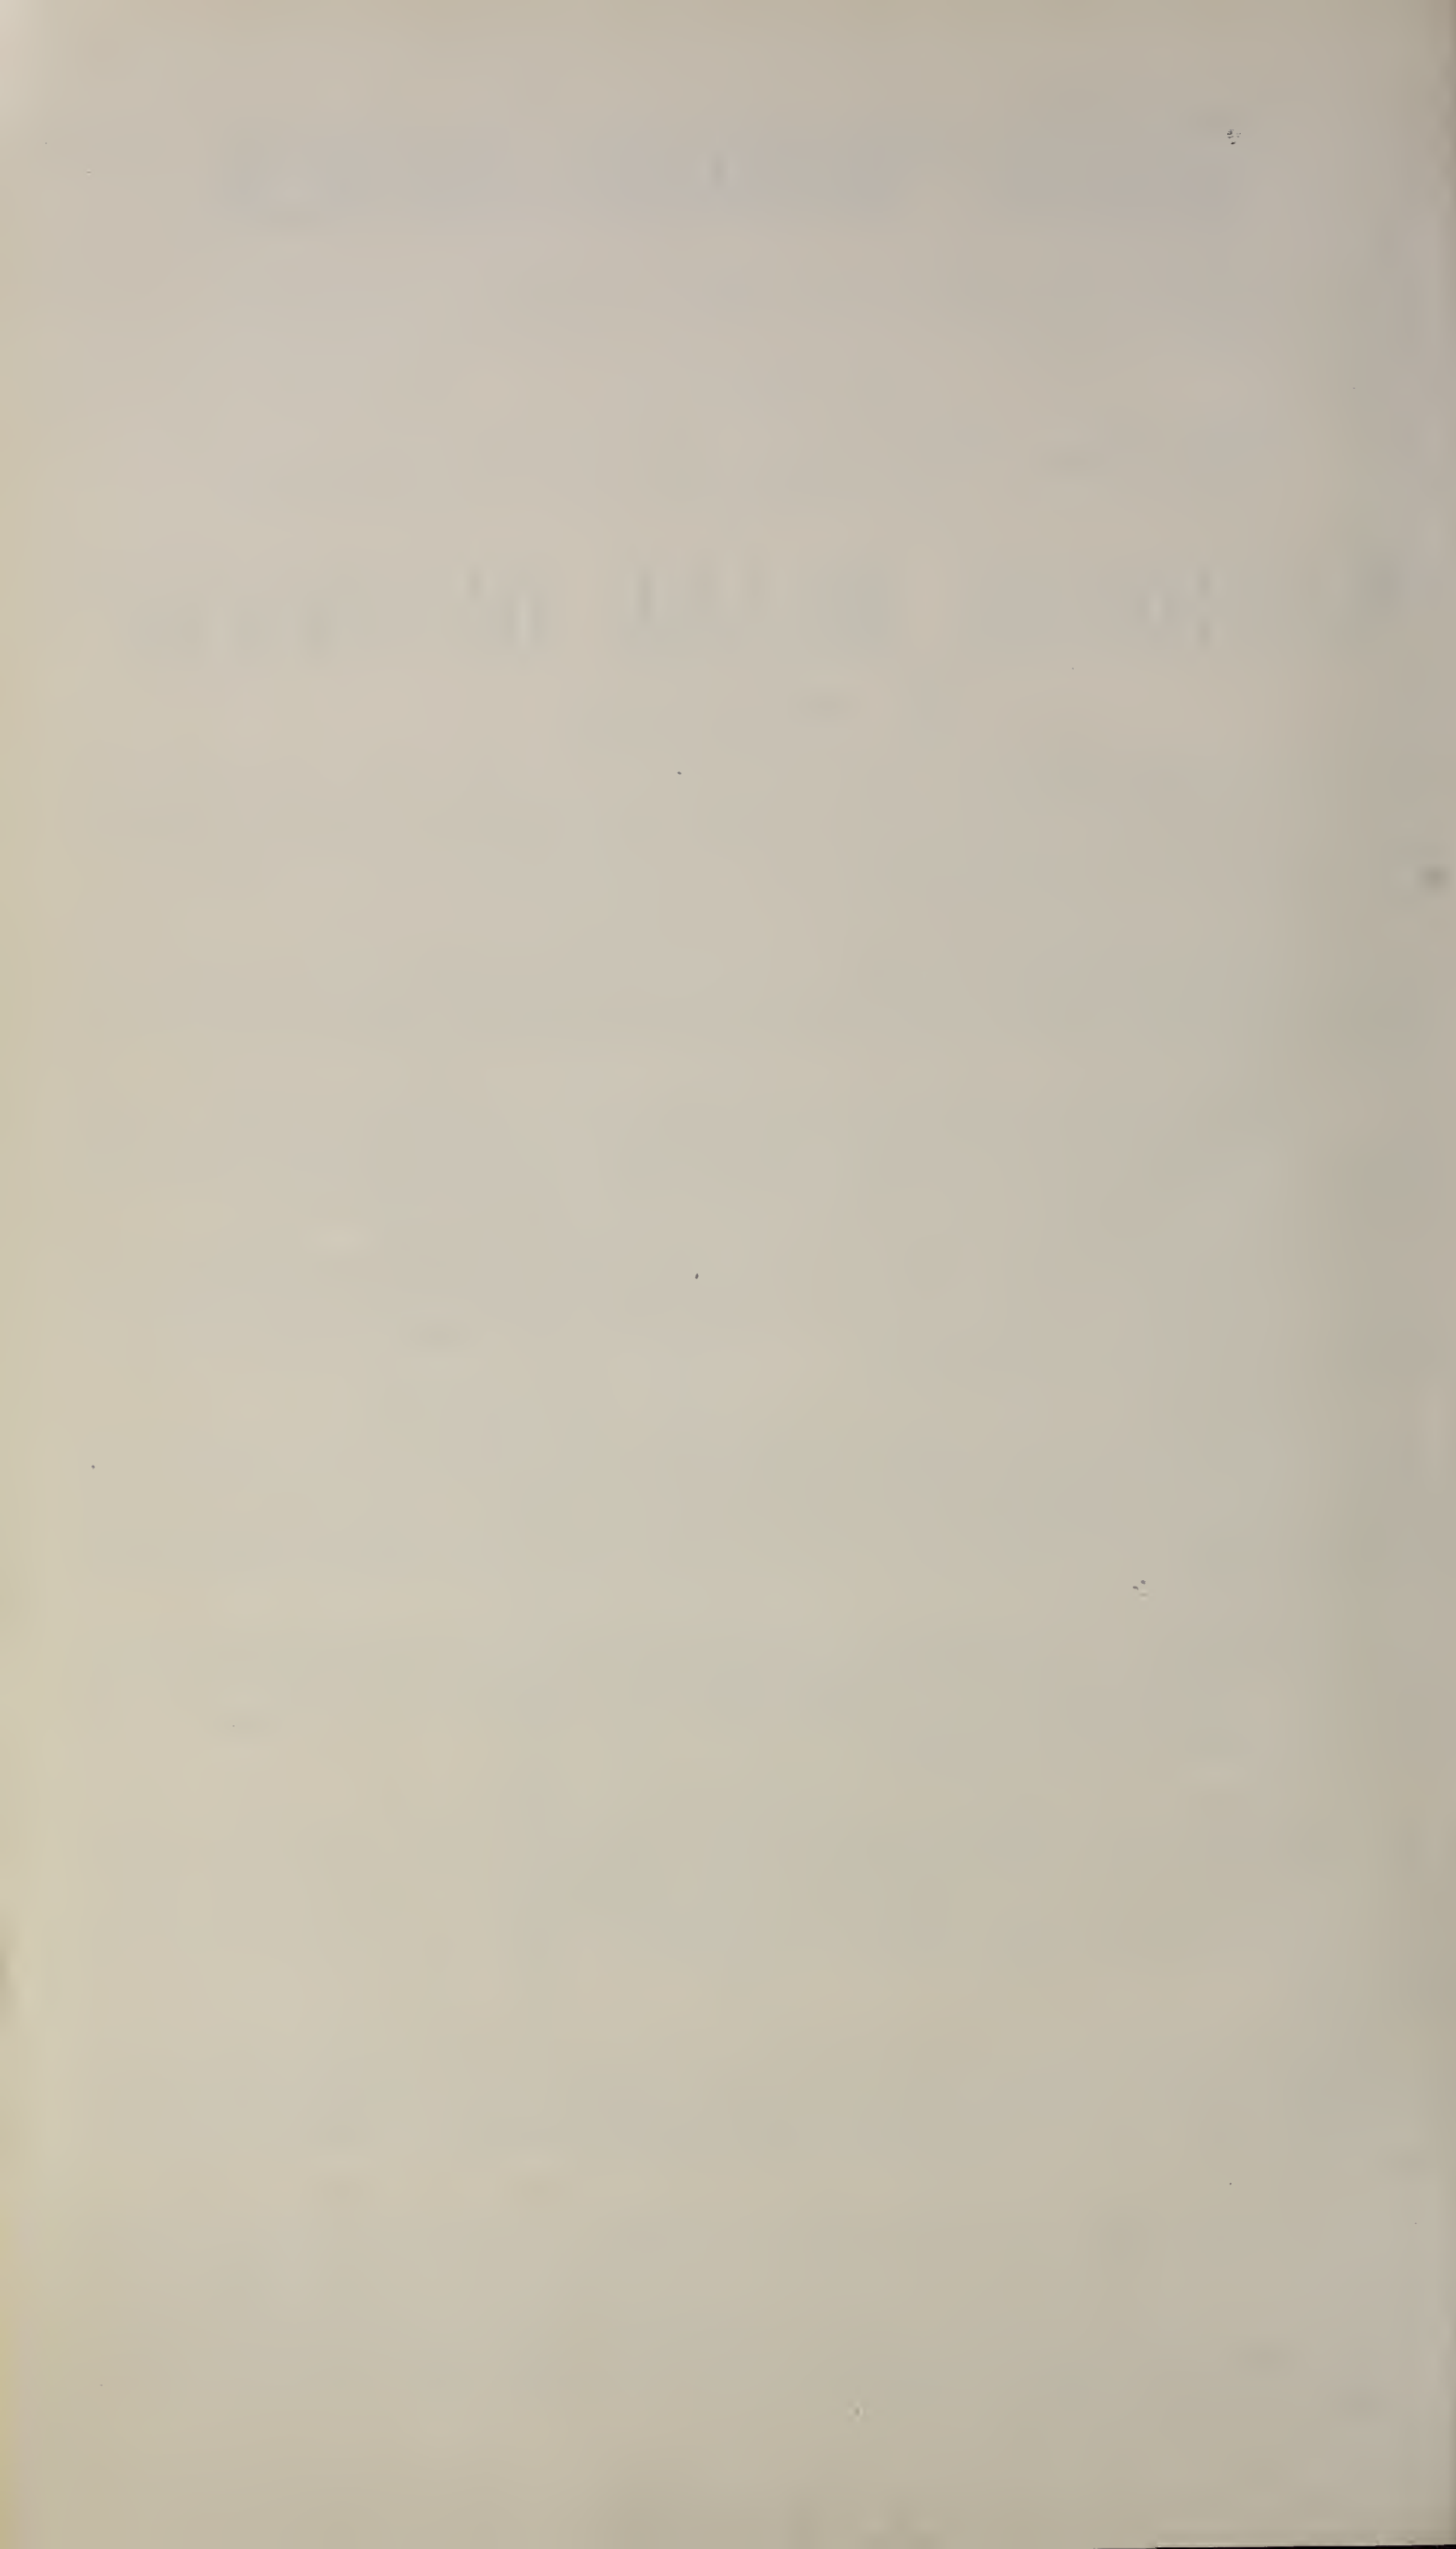

A "National Board of Trade" composed of all present organizations as well as of those rugged individualists who are not association minded, composed also of all manufacturers who are allied to this industry, as well as the manufacturers in the field, composed of amusement, vending, music and service machine men, would tend to bring about the greatest possible sort of unity which this industry could ever hope to achieve.

There is a need for a "National Board of Trade" in this industry for more than just a common meeting ground. There are times when the music machine men do not agree with the vending and amusement divisions. At such times only an organization like a National Board of Trade would be in a position to help bring about harmony once again.

As this industry stands today, the music machine firms are off by themselves in what they believe is their righteous level in this trade.—The vending machine coinmen are entirely divorced from all the proceedings of the rest of the field. And tho the amusement machine firms are trying hard to get together, there is also dissension in their ranks. The trade is therefore split three ways. As it enters into this new and great post-war period, it should, instead, be a single, solid unit ready to meet whatever problems will come its way.

There is no doubt that everyone in the industry whether engaged in the music, amusement or vending machine business, will admit that—"in unity there is strength". And in unified strength there is sure to arise a greater industry bringing better returns and more outstanding recognition for all concerned.

Many instantly point to the fact that when "slot machines" are mentioned the music and vending machine men actually shudder. It is also a fact that the vending machine men even feel themselves in an entirely different category than the music machine firms. This is rather surprising for both consider themselves to be in "an absolutely legitimate" division of this business. Why, then, is there that wide canyon of doubt holding back the necessary coagulation of all these forces which would so much better insure the growth, prosperity and future of all the industry?

"The Coin Machines Merry-Go-Round"

Since few music men want to join in associations with amusement machine people, and since the same is true of vending machine firms, why can't there be created a "National Coin Machine Board of Trade" to act as a common meeting ground for all—without the necessity of these men so definitely and closely believing that their association might tend to spoil other members? Surely the industry has grown to such proportions which require unity. This trade is today recognized from coast to coast as a great and individual industry in its own right. Then why not a meeting ground for all the field?

There are many problems which constantly arise in which all these three divisions of the industry are involved. For example, tax bills are always including all three as a single industry. When the tax makers get together and decide that the time has come to obtain greater revenue from this industry—they do not classify each branch of this business as a separate entity. They tax all three.

Usually the vending machine men rush their own representatives to disclaim association with music or amusement machine men. The music men rush their representatives in to disclaim association with the amusement or vending machine firms. And the result is that all three are fighting against the middle with the tax makers throwing up their hands and letting the bill go thru, in many cases, as is.

If a "National Board of Trade" were in existence there is no doubt that a great deal of misunderstanding would be wiped out. A public relations division to such a board would be helpful to all in the industry. Regardless of what each man thinks of his equipment, whether it be a cigarette, candy, cigar, beverage vender, music or other type of machine, it is still operated via a coin chute and, as long as it has a coin receptacle, it will still be a long and uphill fight to try to get the words "slot machine" out of the average man's vocabulary when referring to coin operated equipment.

It is well known that for years now the press refers to even 1c chocolate bar venders as "1c slot machines". We, in the trade, have our own classification for each type of equipment. But Johnny Public and his newspapers do not have any such classification. Only a "National Board of Trade", if this is the desire of these three great divisions of our industry, could bring about such an understanding. Therefore, even in this regard, a "National Board of Trade" is of great value.

Furthermore, during the war period, when government agencies called for complete representation of all industries, when OPA wrote its price bills, when WPB decided for or against manufacture, there was no one factor which could step up and state that it represented this industry completely in every division. A "National Board of Trade" would have been completely representative. And since it would have members of all three divisions carefully guiding its statements and policies it would surely have met with the approval of these government agencies. This, too, may prove to be a most sudden necessity in the very near future.

Union and labor problems. Tax matters. Revenue demands. All these could best be handled by a "National Coin Machine Board of Trade". It would be one organization where coinmen would feel free and at ease to enter into membership, for such membership would not entangle them with any local associations or with any other factions which might be in effect at the time in their areas.

A "National Board of Trade" would be completely non-profit and non-political and would in no fashion whatsoever serve one division against another. It would simply act as the common meeting ground for all members, all associations, and all those allied to the industry, for the better welfare of all engaged in this business.

Even those who first opposed this idea, when it was proposed by The Cash Box over three years ago, have now come to believe in it as a great necessity for the field. Some of the nation's leading manufacturers, all in various divisions of the field, have agreed that somehow, somewhere, there should be created an organization to which all could turn when necessary.

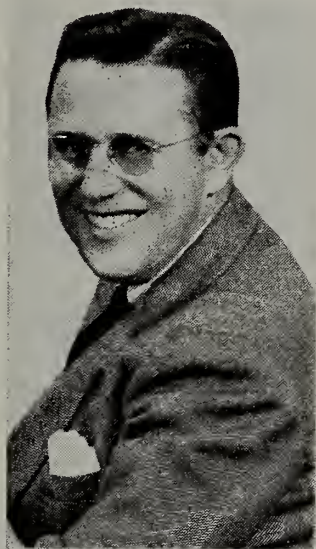

There are operators engaged in all three branches at this time. These coinmen operate music, vending and amusement devices as well as service machines. These men want to feel that when they attend a meeting, or present themselves at a convention, that they will find all divisions of the industry in complete harmony.

A "National Board of Trade" is the answer.

A "National Coin Machine Board of Trade" that will be the common meeting ground for all the men in the industry. That will be non-political, non-profit and completely and unselfishly devoted to the interests of all in the field.

AMI ANNOUNCES PUBLIC RELATION PLANS

CHICAGO — DeWitt (Doc) Eaton, general sales manager of AMI, announced a broad and significant AMI program of trade, public relations and promotion service, in behalf of his company interests as well as the interests of all AMI distributors and operators.

DeWitt (Doc) Eaton

"When I say I believe in advertising and selling" Doc remarked, "I just don't say it like the average man. We all know that too much advertising is wasted and ignored because it is improperly prepared and in no way reflects the quality and prestige of the institution doing the advertising. In the coin machine industry there is a distinct need for advertising of better quality. The public and business world at large always judge you by the way you carry yourself in print. This is why I have decided that every piece of AMI printing and advertising shall be done in the best possible way, with class and distinction written all over it. And the work of all AMI distributors will reflect this same tone."

"Public relations," Doc continued, "begins and ends with quality. When the factory sets a good example, everyone else in the marketing family follows this example."

"It therefore gives me great pleasure," said Doc, "to announce that James T. Mangan, famous coin machine promotion and public relations man and an international authority on exclusive advertising design, will handle all AMI advertising, publicity and promotion. The complete design, art and merchandising facilities of the firm of Mangan & Eckland will aid in the production of modern, brilliant promotion which will be an inspiration to the whole coin machine industry."

Eaton indicated that the AMI advertising schedule will be one of the most extensive and varied even seen in the trade.

"LES" FLECK JOINS MYCO

COLUMBUS, O. — "Les" Fleck, who was associated with Ohio Specialty Co. of Cincinnati, O. for the last 10 years, announces that he has joined the organization of Myco Automatic Sales Co., this city, owned by Mike Cohen.

"Les" is highly respected by all who know him, and has a vast knowledge of the business and the people. During the war he originated the "See-A-Freak" machine, which he built and promoted for Ohio Specialty Co.

Mike Cohen and "Les" Fleck are enthusiastic over this merger, and are planning enlarging, on a vast scale, the jobbing and distributing business of Myco, and assure the trade that they will take care of them in the same manner in which they have always done.

Fleck and Cohen made a joint statement claiming "The operators will get the finest service and treatment possible, and either one of us will always be on hand to listen to their problems, and give our best advice and help for the betterment of the operator's business."

HARVEY SALES MGR. FOR MINTHORNE

LOS ANGELES, CALIF. — One of the most popular and experienced personalities to enter the West Coast picture is Justin M. Harvey, who has just been made sales manager for Jean Minthorne.

Justin M. Harvey

Harvey has a long and successful record in the business. He started in the phono field in 1927 with Holcomb and Hoke, of Indianapolis, Ind. In 1930 he went with Mills Novelty Co. as assistant Chicago sales manager, phono division. Subsequent to that post, he took the position of Pacific manager in their San Francisco offices, later operating phonos and games in the Bay area.

His last four years have been spent in the U. S. Merchant Marine, as deck officer. Justin is happy to be back in the biz, and believes his connection with Minthorne, handling such outstanding equipment as Seeburg and Bally, offers him a great future as Sales Manager.

EAST COAST SALES ROCK-OLA DISTRIB.

NEW YORK CITY — Dave Stern and Tom Burke (Royal Distributors, Elizabeth, N. J.) have joined forces with Harry Pearl and Everett Masterson, forming the firm of East Coast Sales & Distributing Co., Inc. These four powerful individuals, combined under the new banner, will distribute the products exclusively for Rock-Ola Manufacturing Corp. in the territories of New York and New Jersey.

Preparing to do a masterful distribution job for Rock-Ola, they have established their headquarters at 627-629 Tenth Ave., between 44th and 45th Streets, under the leadership of Bob Slifer, who has been appointed as Sales Manager. These offices have been undergoing a complete renovation, and now is one of the show places of the city. The store front has a very dignified design painted on the windows in gold, and above the front, the name of the firm is inscribed in gold on a black background in letters about two feet tall. However, the real beauty is on the inside, where no expense was spared to outfit the offices and showrooms. Also allowed for is a large repair department, which will carry a complete supply of parts.

The only thing new about the company is its name. The members of the firm are all well known thruout the country, having spent many years in the coin machines industry. Dave Stern and Tom Burke boast of over fifteen years experience each, and Harry Pearl has been distributing equipment for the past twelve years. Everett Masterson, whom everyone considers one of the most honorable men in the business, has been operating music for the past twenty years, and some of these has been devoted to distributing music in his territory.

Speaking for the firm, Harry Pearl stated "we offer the operators in our territory a wealth of experience in the music machine business. Coupling our knowledge of the problems of the operators, with the facilities we've readied for them in the New York and New Jersey territories, we're confident that the Rock-Ola music machines will win great favor. The personal services of everyone connected with East Coast will always be available to the trade, and we shall welcome, at all times, any operator who wishes to sit down with us for a discussion of his problems."

New Jersey offices are being prepared at this moment, and the firm will announce the address upon the completion of its renovation.

"BILL" WOLF URGES 70% - 30% COMM. BASIS

LOS ANGELES, CALIF. —Continual pounding by The Cash Box over a period of years suggesting that the trade establish a new commission arrangement with its locations, preferably that of 70%-30%, has resulted in many territories inaugurating this policy. The recent editorial (issue of November 5) along these lines, has brought many comments from our readers. We reprint a letter from M. S. "Bill" Wolf, California Amusement Co., this city.

We believe that your editorial regarding the fact that a 70%-30% commission basis should go into effect for the music operators is one of the timeliest which has ever appeared. Not only is this logical, but extremely solid thinking. Every music machine man in the country realizes that the present 50%-50% commission basis is entirely out of line. We believe that this should be cured just as soon as possible.

If everyone of the leading music distributors will get together and arrange to sell their operators on the plan of using only this new commission basis, the music machine man will not only prosper, but will be able to more rapidly amortize his equipment for the future.

It is our plan to urge everyone of the buyers of the new A.M.I. phonographs and remote control systems to get 70% commission from their locations. In this way they will be enabled to continue on in the automatic music business in a healthier fashion than ever before.

"We believe that the 70%-30% commission basis is a lot better than taking money "off the top". The reason we believe this is because we know that the storekeeper likes to feel some money in his hand when the collector calls. Therefore, this new commission basis, which is beginning to capture the attention of all the music operators on the West Coast, is not only the most logical, but also the best — and, we can safely state, will soon become fact.

As distributors we feel that the day when just selling phonographs was the theme is now all over. From now on we must do an educational selling job—one that will help all of our customers to prosper and one that will assure everyone in the music machine industry continued prosperity for the years to come.

In addition, I know that DeWitt (Doc) Eaton of A.M.I. is more than anxious to assist all operators, and will concur with these thoughts."

CANADIAN PROBLEMS SAME AS IN U. S.

MONTREAL, QUE., CANADA — Leonard Drapken of the Lawrence Novelty, this city, writes about the Canadian problems.

"A lot of respect and credit is due The Cash Box for the way you handle the problems of our industry. The fact, that you print editorials each week about different 'beefs' is something in itself, not to mention the service that your price lists render to all of us, Jobbers and Operators alike.

This brings me to the reason for writing you. We in Canada have exactly the same problems. Greedy storekeepers, tax problems, and unscrupulous operators selling to locations. It is my contention that you ought to devote a portion of The Cash Box to Canadian affairs.

I maintain this because we are your largest customers outside of your domestic markets. We have no trade paper worth mentioning. Our industry in Canada is growing every day and last but not the least, we need a paper with prestige to try and weld our operators and jobbers together to fight the same problems you are fighting in the States."

(Ed note: The Cash Box has carried many columns about the Canadian coin men and companies, and have quite a circulation in Canada. We would like to hear from other Canadian coin machines companies.)

SUGGESTS PLAN TO ELIMINATE DIRECT SELLING

LUBBOCK, TEX. — Marvin McLarty, McLarty Music Co., this city, writes us making a suggestion which he thinks will help eliminate location selling.

"I think all prices on all equipment should be quoted in ads at a list price of twice the price to operators. This would help to raise the commission. If new phonos were quoted at \$1400.00, it would also discourage location buying".

(Ed note: Naturally, McLarty refers to advertising in publications that location owners can purchase on newsstands. The Cash Box, going directly to coinmen only, in a sealed envelope, offers no problem.)

WURLITZER ANNOUNCES NEW PHONOGRAPH AND FIVE NEW REMOTE CONTROL UNITS

NORTH TONAWANDA, N. Y. — With General Sales Manager M. G. Hammergren at the helm, Wurlitzer launched its new postwar line with a flourish reminiscent of the good old prewar days. While actual models are not yet available for display, the advance publicity indicates a great line and from all reports, Music Merchants are flooding Wurlitzer Distributors with a flock of orders that will keep Wurlitzer's Phonograph Division jumping for a long time to come.

Interest naturally centers about the new Wurlitzer Phonograph, Model Number 1015. Bubbling over with enthusiasm "Mike" Hammergren pointed out that it combines many time-tested Wurlitzer features with what he terms revolutionary "Cleared for Action" Service.

Obvious to all by the striking pictures released of the Model 1015 is this fact. It packs eye-appeal aplenty. From its scuff-proof, stain-proof nickel plated base to its fluorescent and bubble illuminated cabinet featuring generous use of new fast color, non tarnish plastics, the Wurlitzer Model 1015 is an eye-arrester of the first magnitude.

"Sure its steel reinforced cabinet is a beauty," says Mr. Hammergren, "but the feature that will make Music Merchants happiest is "Cleared for Action" Service — the greatest service, time and money saver ever offered."

And he adds, "The entire front of this phonograph is one great door that swings wide open. Every service unit in the cabinet is right in sight, easy to reach and a cinch to service. When you open that door, you've opened an opportunity for the fastest and most economical service ever offered on any phonograph."

Examination bears out the reason for Mike Hammergren's enthusiasm.

All lights and color cylinders are located on the inside of the door. Nothing need be removed to reach them. Everything is in plain sight.

The Moto-Drive Coin Switch, now electrically operated and automatic, is more accessible than ever. It is said to assure trouble-free operation from coin slide to cash box.

Speaking of the cash box, Hammergren points out that "Cleared for Action" Service applies to it, too. It's larger than ever, easier to remove, easier to replace.

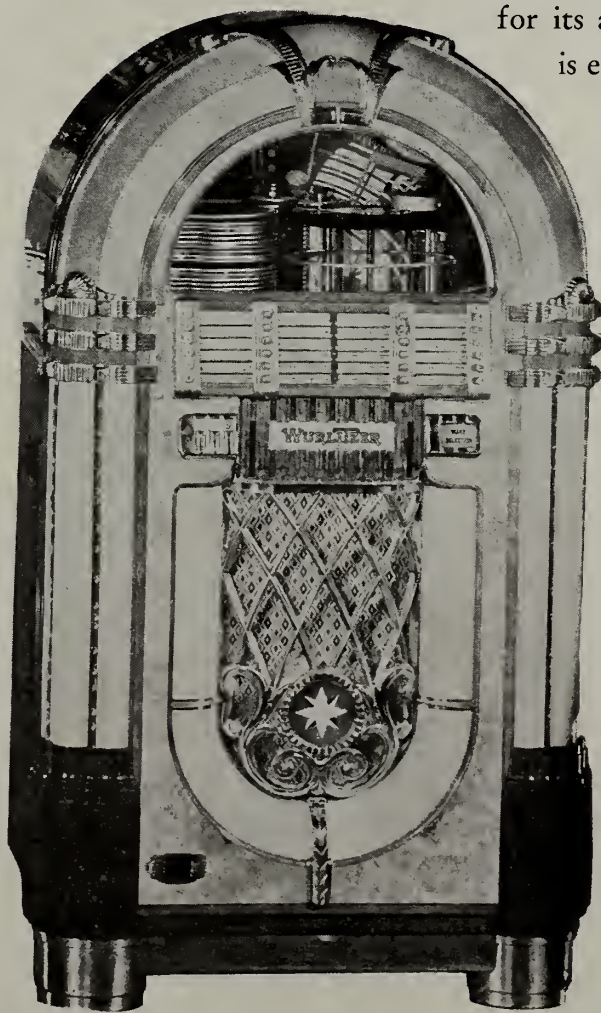

Another convenience is a single unit electric selector and junction box. Most electric circuits are located in this one easy-to-reach box.

"Furthermore," continues Wurlitzer's General Sales Manager, "the whole electrical system has been sectionalized by plug connections. You can easily disconnect, remove and replace every electrical unit. That's another great feature of 'Cleared for Action' Service."

Examination proves that the Magnetic Coin Selector which is adjustable to non-level floors, has a coin return button and is well-known for its ability to accurately size coins, is easier to reach than ever before.

"And that isn't all," adds Mike. "Look at the speaker. It's off the main door, mounted on a door of its own that opens wide for service. Any chance of main-door sag due to speaker weight has been absolutely eliminated by this feature of 'Cleared for Action' Service."

Additional features of the Wurlitzer Model 1015 include automatic starting fluorescents requiring no push buttons. More brilliant illumination at lower than ever wattage. A claimed 66% reduction in cabinet heat caused by illumination with consequent longer record life. Electrical selectors. Complete built-in equipment for triple-wire remote control. An electric coin

WURLITZER ANNOUNCES NEW PHONO (continued)

counter that registers every coin deposited in the phonograph and in every remote control unit attached to that phonograph.

Concludes Mr. Hammergren, "I am positive that every Music Merchant will say the Wurlitzer Model 1015 was worth waiting for. I know they'll hail its 'Cleared for Action' Service as one of the greatest advancements in automatic music history. I want to make it plain that Wurlitzer will back up this instrument and the remote control units being introduced simultaneously with its new plans and new promotional activities that will extend Wurlitzer leadership over and above what it has ever been in the past."

TWO BRILLIANTLY STYLED WALL OR CEILING SPEAKERS

In addition to the Model 1015 Automatic Phonograph, Wurlitzer is announcing five new remote control units—Speaker Models 4000 and 4002 and Wall Box Models 2020, 3021 and 3031.

The Model 4000 is an all-metal, color-reflecting wall or ceiling speaker featuring a star motif. A unique feature of this highly polished metal speaker is that it stands away from the wall or ceiling to cast an eye-arresting pattern of light around it. The brilliant frame picks up and reflects surrounding colors with highly attractive results.

The Model 4002 Wall or Ceiling Speaker is similar in design to the Model 4000 but the frame is entirely of vari-colored plastics. Grille cloth is silver plastic with harmonizing star ornament.

Each of these beautiful speakers houses a 12 inch permanent magnet dynamic speaker that reproduces Wurlitzer music with exact fidelity.

THREE HIGHLY POLISHED METAL WALL BOXES

Completing the new Wurlitzer line are three startlingly beautiful Wall Boxes, which, Mr. Hammergren stated, have been designed to meet a

consensus of Music Merchant requests.

There is the Model 3020, a 5/10/25c wire box. It has an improved program holder, is housed in a streamlined, highly polished, metal case. It is said to be easily cleaned and will always look new. The polished metal case picks up and reflects surrounding colors to give it added eye-appeal. Mechanism is bug and dust-proof and may conveniently be removed from the case for service.

The Model 3020 is convertible from a 3-wire to a 2-wire system or to a wireless system by addition of a plug-in transmitter.

The Model 3021 is a 5 cent Wall Box very similar in appearance to the 3020 except that it is for 3-wire operation only. Push button selector and improved program holder are features of this Wall Box.

The Model 3031 is a 5 cent, 30-wire Wall Box outstanding for its beauty and simple, compact construction. It, too, is housed in a highly polished metal case, is bug and dust-proof. A new style horizontal dial type selector adds to its eye-appeal.

HAMMERGREN PREDICTS GREAT FUTURE FOR WURLITZER MUSIC MERCHANTS

After commenting on Wurlitzer's new models, General Sales Manager Hammergren made this statement. "To aid Wurlitzer Music Merchants in getting off to a great start with the new merchandise, we have strengthened our field and factory forces. Distributor setups have been streamlined. Factory service facilities have been added to and highly trained for the job they have to do. We will broaden and enlarge our advertising and merchandising activities. In sum, Wurlitzer is in the strongest financial, production and distribution position it has ever enjoyed. I look for every Wurlitzer Music Merchant to share a long period of prosperity as Wurlitzer extends its leadership in the coming era of postwar prosperity."

C. M. I. BLUE BOOK

The "Coin Machine Industry Blue Book" for new and used coin operated equipment is issued every week. It is a review and digest of all selling prices based upon the market quotations for the week. Copyrighted 1945 by The Cash Box, 381 Fourth Avenue, New York 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The C.M.I. Blue Book is to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN
DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN
LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR
PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR
PAST THREE WEEKS
- XX** — MEANS NO PRICES QUOTED FOR
MANY WEEKS — PRICE SHOWN
IS LAST KNOWN QUOTATION.

IMPORTANT

Machines underlined mean these were most active
in trading the past week.

Dear Mr. Operator:

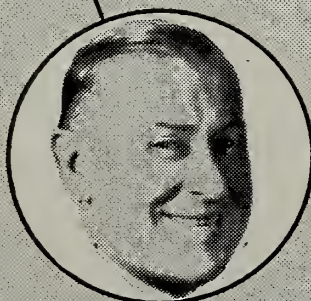

Introductions aren't necessary at all. You've known us for 62 years. Now wait a minute—hold on! Maybe you aren't that old . . . but add it up for yourself. Harry Pearl has been a coin machine distributor for twelve years. Dave Stern has been in the field for 15 years, and Tom Burke for 15 years. Everett Masterson has been an operator for over 20 years. Twelve plus thirty plus twenty. That adds up to 62. 62 years in the coin machine field makes for a lot of knowledge about the kind of service you, Mr. Operator, want. May we add you to our long list of satisfied customers?

FROM GRIM WAR WORK

*to Serving You of the Amusement
and Recreation World Again . . .*

A Welcome Change!

During the long bitter years when we did war work exclusively, we were inspired with grim determination to contribute our experience and skill to final victory—always praying for an early peace.

Now we have turned again to the happier pursuits of serving you of the recreation and amusement world—to the production of Mutoscope's far-famed coin machines. We're working for you again and we like it. Since V-J day we've been reconverting for new Mutoscope equipment, BUILT TO LAST longer—and into their manufacture will go all those precision skills we developed and perfected in our years of intensive government work.

First of Mutoscope's recent developments is the NEW *PHOTOMATIC—a true marvel of science . . . the 100% coin operated automatic photographer that takes a beautiful portrait-photo and delivers it, framed, in less than one minute. The only machine of its kind in the world! It's slated for the greatest business photography has ever known. A brilliant profit-maker. Orders are now being taken—first orders get first delivery.

Then there's the *VOICE-O-GRAPH, Mutoscope's automatic coin-operated voice recorder that faithfully captures the magic of the human voice, plays it back automatically, and automatically delivers the record. A thrilling experience! Irresistibly appealing to young and old.

THE *ATOMIC BOMBER, that newest idea in Mutoscope machines—timed to capitalize on the universal interest in civilization's breath-taking new discovery. It's right up to the minute.

Other dependable profit-making Mutoscope machines are currently in process of development.

Write for our New Photomatic Sales Plan . . . and for details of other new coin-operated Mutoscope equipment. Keep posted by keeping in touch with Mutoscope—specialists in manufacturing coin-operated machines for over 50 years.
